Here is what Kevin and Justina recommend for No. 19:

19. Here is my question. I am aware that Dr. Beck participated in meeting at EPA prior to June 8 in which ACC comments on the TSCA implementation were discussed. For example, at at June 1 2017 meeting with Environmental Working Group, the discussion related to the proposed inclusion of new definitions in the final rule--a position advocated by ACC--was discussed, as was ACC's advocacy of this change. Was this a violation of the ethics rules? Any comment on this?
